Lady luck and the four leaf clover  
Won't ease this hurt, i feel all over  
My life was one special occasion  
Till u leave me damp in the situation

Well well well standing on shakey ground  
Ever since you put me down  
Standing on shakey ground  
Ever since you put me down

My car got repossessed this morning  
Harder times I haven't seen in years  
Able to throw me a life preserver  
'cos I'm about to drown in my own tears

Well well well standing on shakey ground  
Ever since you put me down  
Standing on shakey ground  
Ever since you put me down

Well well well standing on shakey ground  
Ever since you put me down

Standing on shakey ground  
Ever since you put me down  
Standing on shakey ground  
Ever since you put me down

Well well well standing on shakey ground  
Shaking, shakey ground  
Standing, standing  
Standing on shakey ground
