Hello baby, hello honey
Please, won'tcha come back to me?
I can hardly see how I write this letter
If you don't hurt home, I never get better

Please, won'tcha come back to me?
It's been a long, long time since I kissed your lips
Seems like ages since I took that trip, oh, I miss you so
Honey, baby, don't you hear me callin'?
These what you see ain't raindrops fallin'

Please, won'tcha come back to me?

You don't know what I'm goin' through
I'm so doggone blue, I'm bluer than blue
Oh, I need you so

Catch a plane, ride a train
Do anything just ease this pain
Please, won'tcha come back to me?
Please, won'tcha come back to me?
