"The Switch"

Visit "[The Switch](#)" on MotoLyrics.com

The switch goes on, my son, my son
The switch goes on, and it'll never turn off

The light, goes on, my son, my son
The light goes on, and it'll never turn off

Oh, won't you stay, you'll be so far away,
Before you know, oh no x2

Cause the switch goes on, my son, my son
The switch goes on, and it'll never turn off

You'll see someone, my son, my son
You'll see someone, and you'll never look away

Oh, won't you stay, you'll be so far away,
Before you know, (you'll find one that fits you) oh no,
Oh, won't you stay, you'll be so far away,
Before you know, (you won't know what hit you) oh no,

The switch goes on, my son, my son
The switch goes on, and it'll never turn off

The light, goes on, my son, my son
The light goes on, and it'll never turn off

Oh, won't you stay, you'll be so far away,
Before you know, (you'll find one that fits you) oh no,
Oh, won't you stay, you'll be so far away,
Before you know, (you won't know what hit you) oh no,

The switch goes on, my son, my son
The switch goes on, and it'll never turn off

The light, goes on, my son, my son
The light goes on, and it'll never turn off
