As long as the sun blazes and burns / Your mercies will
never fail / As
long as the seed time and harvest endure / Your
mercies will never fail
And when my soul is downcast within / Your
compassions have no end
Though the arrows pierce me / Though the darkness
rages fiercely / You will
be my strength / Though the earth gives way / My
portion You will ever be
In fear or in faith / I'll say to my soul / Your mercies will
never fail /
A promise for ages / An anchor that holds / Your
mercies will never fail
And when my soul is downcast within / Your
compassions have no end
Though the arrows pierce me / Though the darkness
rages fiercely / You will
be my strength / Though the earth gives way / My
portion You will ever be
It's all because of the Lord's great love / All because of
the Lord's great
love / It's all because of the Lord's great love / We are
not consumed
It's all because of the Lord's great love / All because of
the Lord's great
love / It's all because of the Lord's great love / His
mercies are ever new
Though the arrows pierce me / Though the darkness
rages fiercely / You will
be my strength / Though the earth gives way / My
portion You will ever be /
My portion You will ever be
