Richard Marx

No one before you  
Ever made me feel this way  
You taught me how to believe  
And all I've ever wanted  
Is right there in your eyes  
And everything you are is that I need

CHORUS:And I'm high on the wings of a dream  
Now I know what it means to be crazy in love  
And baby,I wanna feel your heart in mine  
'Til the end of time  
Your love is all that matters to me  
When I hold you tenderly  
You're the river  
Running into my sea  
It's like we have always been one  
Baby,you stopped me from shaking  
With one touch of your hand  
And now all my hurting is done

CHORUS-repeat

In this world,only you  
Can love me the way that you do

CHORUS

And I'm high on the wings of a dream  
Now I know what it means to be crazy in love  
And baby,I wanna feel your heart in mine  
'Til the end of all time  
Your love is all that matters to me  
When I hold you tenderly  
Your love is all that matters to me  
When I hold you tenderly
