You make me love you  
Night after night  
Don't know what you do  
But you sure do it right  
There's no mistakin'  
Oh, that my love is for you  
You make me love you  
All I wanna do is love you...more

Oh, like the sunshine warms my body  
Like a love song soothes my soul  
Like this feeling deep inside me  
There are some things I just can't control

It happened so naturally  
Girl, that you live and breathe

You make me love you  
Night after night  
Don't know what you do  
But you sure do it right  
There's no mistakin'  
Oh, that my love is for you  
You make me love you  
All I wanna do is love you...more

I see forever when you kiss me  
It's like heaven when we touch  
Every whisper makes me shiver  
Seems we never can get close enough, no

I can't count the stars in the sky  
Or all of the reasons why

You make me love you  
Night after night  
Don't know what you do  
But you sure do it right  
There's no mistakin'  
Oh, that my love is for you  
You make me love you

All I wanna do is love you...more

Girl, I'm beside myself  
I know no one else  
Has this effect on me  
Every time you're next to me

You make me love you  
Night after night  
Don't know what you do  
But you sure do it right  
There's no mistakin'  
Oh, that my love is for you  
You make me love you  
All I wanna do is love you...more

You make me love you  
Night after night  
Don't know what you do  
But you sure do it right  
There's no mistakin'  
Oh, that my love is for you  
You make me love you  
All I wanna do is love you...more
