Now Stop that small talk, turn that light off, it ain't my
fault, you look so fine;
My hearts achin', and I ain't fakin', I don't ask for much
of nuthin', I just need a little lovin';

Come on babe, come a little closer, honey move it over,
feels so right,
Pull that shade, just a little lower, come a little closer,
baby tonight.

Now put that phone down, shut that door now, let's just
think about, me and you;
My hearts racin', time is a wastin', I don't want much of
nothin', a little kiss a little hugin'

Come on babe, come a little closer, honey move it over,
feels so right
Now pull that shade, just a little lower, come a little
closer, baby tonight

Cut off that late show, turn that lamp low, honey you
know, how I feel;
My hearts beatin', the night is pleasing, I ain't asking
that much of ya, all I want to do is love ya;

Come on babe, come a little closer, honey move it over,
feels so right
Now pull that shade, just a little lower, come a little
closer, baby tonight.

Now come on babe, come a little closer, honey move it
over, feels so right
And pull that shade, just a little lower, come a little
closer, baby tonight.
