Likely as not, there's been better weather  
I feel real sure there's been better times  
Right here tonight with you all around me  
I'm so glad, right now is mine

**CHORUS:**

So honey tonight, make it alright  
Turn on your smile, for me for awhile  
Take me away, from where I have been  
I know you love me but, love me over again

You have the way, to feel my emotions  
'Til there's not a word, left in my mind  
Time's get so hard, so confusing  
You make now a so much better time
