Another lonely night and every passing hour
Makes it harder to fight I'm still under your power

You've got a hold on me
Won't let me be
You're not even her I'm in love with the memory

Another morning alone
I don't even remember
How many battles you've won and I can't even
surrender

You've got a hold on me
Won't let me be
You're not even her I'm in love with the memory

Another day with the blues
Don't know how I'll get through it
I've got your memory to lose
And I don't know how to do it

You've got a hold on me
Won't let me be
You're not even her I'm in love with the memory 2x
