Another twenty miles and I'm halfway there,  
Another twenty miles and I'm running scared  
It's a beautiful night and I should be there

I know you are tired of waiting  
And I know you are tired of hesitating

If love gets there before I do,  
Darling don't you take it.  
If love gets there before I do,  
Darling don' t you do it, no don't you do it

I know you're hearing line from those other guys  
Trying to wear you down under starry sky  
But you know that I want you to just hold on

I know you are tired of waiting  
And I know you are tired of hesitating

If love gets there before I do,  
Darling don't you take it.  
If love gets there before I do,  
Darling don' t you do it, no don't you do it
