Likely as not, there's been better weather  
I feel real sure there's been better times  
Right here tonight with you all around me  
I'm so glad, right now is mine

Honey tonight, make it alright  
Turn on your smile for me for awhile  
Take me away from where I have been  
I know you love me but love me over again

You have the way to feel my emotions  
'Til there's not a word left in my mind  
Time's get so hard, so confusing  
You make now a so much better time

So honey tonight, make it alright  
Turn on your smile for me for awhile  
Take me away from where I have been  
I know you love me but love me over again

Yeah, honey tonight, make it alright  
Turn on your smile for me for awhile  
Take me away from where I have been  
I know you love me but love me over again
