You are my sunshine, you are my rain  
You make me happy, (and you) never complain  
When life gets tested, and all disarranged  
You clear the air, (and) help me not go insane

CHORUS:

I can't afford a life for me  
See what you see  
How could you be OK, with one like me?

I have your shoulder, I have your heart  
When we are together, when we are apart  
Love just keeps coming, at such a blinding speed  
You hold me up, (and) save me up from the stampede

CHORUS:

I can't afford a life for me  
See what you see  
How could you be OK, with one like me?

How could you be OK, with one like me?  
One like me!
