The only game in town, the only one I've found
When you're lookin' at love really close, you're lookin'
at me

I'm lookin' at you

The only one I know, who never lets me down
So good to be around, the only game in town

I've been around, had my time
I've been crazy, been out of my mind
Then you came along and changed my ways
You made me stop playin' those games everybody
plays

The only game in town, the only one I've found
When you're lookin' at love really close, you're lookin'
at me

I'm lookin' at you

The only one I know, who never lets me down
So good to be around, the only game in town

Then you came along and changed my ways
You made me stop playin' those games everybody
plays

The only game in town, the only one I've found
When you're lookin' at love really close, you're lookin'
at me

I'm lookin' at you

The only one I know, who never lets me down
So good to be around, the only game in town

You're the only game in town.
