Another lonely night  
And every passing hour  
Makes it harder to fight  
I'm still under your power

You've got a hold on me, won't let me be  
You're not even her, I'm in love with the memory

Another morning alone  
I don't even remember  
How many battles you've won  
And I can't even surrender

You've got a hold on me, won't let me be  
You're not even her, I'm in love with the memory

Another day with the blues  
Don't know how I'll get through it  
I've got your memory to lose  
And I don't know how to do it

You've got a hold on me, won't let me be  
You're not even her, I'm in love with the memory  
You're not even her, I'm in love with the memory
