In amidst, of the deep blue abyss, without your love  
found chance  
Energy surround, enhance spirit now Aural Pleasure  
In amidst your souls across ropes checking where your  
mind sun shines  
Energy surround your head spinning now aural  
pleasure

They call me Gab and I rap  
And I do my thing and swing it bring it  
In my hab-i-tat  
Where my vocals stinging even linger  
In the back of your neck  
Where you feel the tingle lingle ling  
You will adapt to your snapping your thumb and finger  
eagerly  
Now since we have to achieve  
We must believe believe believe  
Into a certain degree  
Just like the wheat you need to feed you  
Man this circus won't cease  
It just eats and eats and eats  
Until we serving these beats  
In addition to serving MCs  
'Till they go berserk and then freeze  
Any day of the week I speak through speakers  
You can burn with this heat  
MCs you freeze to see (the reasons)?  
Take your circuits and free ya up  
From the he's and she's and needs  
Emotion surface to be  
Having your search through the abyss Aural Pleasure  
y'all

In amidst, of the deep blue abyss, without your love  
found chance  
Energy surround, enhance spirit now Aural Pleasure  
In amidst your souls across ropes checking where your  
mind sun shines  
Energy surround your head spinning now aural  
pleasure

Check it out

On the corner of jail, but not a dealer of death  
Realer, iller, conceal a feeling, sealing there's nothing  
left  
On the top, on it's penicillin, you got wish  
It's a oracle, then it seize ya, I'm sure you got lifted  
Oceans of rhythm inside a killer go ta death  
Coming divine as I reach and travel in the depths  
Moving your spirit just like you're walking through a 'X'  
Choice of the generation, that come and be the peps  
Bubbling all in your cups, don't even follow it up  
Nothing to wallow in but the sound that you're gobbling  
up  
Rocking in time until your popping your mommy up  
Calling your Aunt, and also your pa, and the swallow  
the funk  
It's just a little something that open your comatose  
Stay to living in Babylon, with the spiritually dead ghost  
This is recommended, I highly advise a toast  
Hopefully it inspires and maybe encourages growth  
Aural Pleasure y'all [x5]

Watch out Blazing Arrow

Test 'til it's scarred  
Press through the storm  
Find who we are, with true desire  
For no human being  
Quest for your dreams  
By any means, endure the fire

PURE

Test and trial  
An error destined to endure  
Infallible unyielding to the adversary's law  
'Cause I graft for the after me  
Syntax in a masterpiece burner  
Unless your flame's life surpasses eternal  
You couldn't swing it if you had a pendulum strapped  
to your sternum  
I am the sun  
One with the son of man righteousness

Won't be defeated by the underhand faceless  
Hands in the presence of greatness  
I'll teach you how to backstroke  
With cinder block bracelets  
Dark paddling kicking in the quick sand no aces  
Constance under pressure  
Test how true your faith is FAITH

You wanna see my face, connect the stars  
Passion birth right RAW  
Hide electric Gibson guitars  
Spark cohiba cigars  
African Tsars  
From the call  
Think fast like Ramadan  
I'm beyond the book of Ramah ad  
Nigeria Phenomenon  
A bbo  
Dot to dot  
I am the might of common law  
Kum Bay ya  
Chronicle  
Got the run of flow  
Jungles beside a hole  
Songs that a side atold Geronimo platoon  
Undergrounds a phat  
I tousle now swallow slow  
Let my fire killer higher  
Hell a soul  
Floss you with barbwire coils  
Anoints with Allah bills  
Cause royal karma's close  
And can't wait (And can't wait)  
God's be ghost  
Waving a burning spear  
I am Faith I am Faith I am Faith
