Green light now begin
Green light oh way
Ee yah, oh way, ee yah, oh way, ee yah, oh way
Green light now begin
Green light oh way
Ee yah, oh way, ee yah, oh way, ee yah, oh way
Green light now begin

The verb annihilator pen, every animator blend
Thought exaggerate a win, comin' at ya made ya thin
Diabolically I grin as I'm frolicking within
Your anatomy again makin' people higher

Into infinity from sin where your remedy
For them who are feelin' where your friends don't
intend to be
A trend but a symphony of hymns lyrics sent to me
From him I extend to thee the Tims of intensity

Lend your attention see is whence your invisions
Of a mental division full of internalisms
And again and again I'm gonna win this division
We a men on a mission

Green light now begin
Green light oh way
Ee yah, oh way, ee yah, oh way, ee yah, oh way
Green light now begin
Green light oh way
Ee yah, oh way, ee yah, oh way, ee yah, oh way
Green light now begin

No more of that sittin' in a slump and uh
No more of that coulda, woulda, shoulda junk
No more of that waiting for the inspiration, innovation
Or a green light, now begin

No more of that lettin' all your time pass
No more petty illusions of the mindless
It's time to expand, power from within
You're takin' over this dominion green light now begin

I be the heat of the night don't fear the leader?
I'm hear to strike light reveal the meteorite
Eating your readings and pens bleeding intense
feeling
Appealing sentence in dents in just reeling 'em in

I'm merely a chameleon, amid your elementary
Elements of the century tell 'em that it was me that sent
ya
Tell 'em a visually they'll be in to me until they sleep
And hell I'm an entity bailin' well and a felon, I'm free

Millin' and rousin' and I'm rollin' and killin' from
filtering
Hell of intelligent diligent heaven sent benevolent
relevant medicine
Poetry pedestrian peddelin' mad adrenaline to lyrical
gentlemen
Okay? Alright, okay? Alright, okay? Alright, okay?
Alright

Green light now begin
Green light oh way
Ee yah, oh way, ee yah, oh way, ee yah, oh way
Green light now begin
Green light oh way
Ee yah, oh way, ee yah, oh way, ee yah, oh way

Green light now begin
Green light oh way
Ee yah, oh way, ee yah, oh way, ee yah, oh way
Green light now begin
Green light oh way
Ee yah, oh way, ee yah, oh way, ee yah, oh way
