Rain and thunder and lightning  
Crumbling buildings  
Falling hurricanes  
Earth shattering membranes  
Scattering insane  
Happening  
Souls keeps burning  
And the sky keeps plummeting  
Now--

The sky is falling, life is appalling  
And death is lurking, niggaz killing each other  
Leaving bodies nobodies searching for  
And youth announced ..., catching a bit of murder one  
And mothers is drinking and drugging, hoe-in;  
searching for their son  
And liquor stores upon every corner  
And younger people done accepted defeating  
The melting pot of lavas seeping  
And the hood is all the mic can conceive when your  
foes bleeding to their death  
And you picking their pocket  
Wanna just get even  
Niggers is banging and coppers is banging punk  
snuggin  
Highly intelligent Africans lowered to punk smuggling  
And capitals of the planet, planets run by the  
government  
And genocide 's overwhelming, devil is loving it  
And children in highschool go 'n smokin their classes  
up  
And people that's rich don't be checking for what is  
happening  
Degradin all women, knock em up, leave em, now  
smack em up  
And ain't no way to reach us we're sleeping like hells  
castle  
Sky is falling

Rain and thunder and lightning  
Crumbling buildings  
Falling hurricanes

Earth shattering membranes  
Scattering insane  
Happening  
Souls keeps burning  
And the sky keeps plummeting  
Now--

Rain and thunder and lightning  
Crumbling buildings  
Falling hurricanes  
Earth shattering membranes  
Scattering insane  
Happening  
Souls keeps burning  
And the sky keeps plummeting  
Now--

Rain and thunder and lightning  
Crumbling buildings  
Falling hurricanes  
Earth shattering membranes  
Scattering insane  
Happening  
Souls keeps burning  
And the sky keeps plummeting  
Now--

The sky is falling, no one is watching  
Tornadoes twisting wheres nobody is listening  
And fires no one pays attention  
Energies are erupting  
Blurring the intentional vision  
Doctors and lawyers and scientists all are locked in the  
prison of the mind  
And all the youth are unreachable but they teachable  
But emcees don't be teaching them too  
Down deep down in their soul  
Amongst the prostitution and pimping, robbing and  
stealing  
We give a name  
Sab-a truth  
This is nigger-land  
Glad to knew ya  
But give a damn  
For the future  
Religions is institutionalized  
Hittin truths, even youths...alized  
You got two pistols at the head of your own people  
Its lethal but it's living proof  
Instead of leaving smiles leaven death inside of our  
living room

And instead of college they got us slingin after  
highschool  
For the love of the money and everything that it will buy  
you  
Everybody out for that  
And they kill you if you a rival  
20 lines and 1 stake on the table  
Its about survival  
The sky is falling

Rain and thunder and lightning  
Crumbling buildings  
Falling hurricanes  
Earth shattering membranes  
Scattering insane  
Happening  
Souls keeps burning  
And the sky keeps plummeting  
Now--

Revelation  
From the Now ...  
To the Temptation  
Calm ... the Fury  
All .... ..  
Drown the confusion  
Through the devastation  
Live in the trees of elimination  
Truth is absolute  
Prophets can't wait long  
..... ..  
Cant take long  
Revelation  
Devastation  
Better stay strong
