No no no quiero I can't handle it no more  
I just wanna stay home alone coz I feel that  
Something is wrong  
Listen to what I really want I want some  
Difference in love no I don't wanna dance with your  
Eyes all through the night  
No I don't wanna see your face just staring at me  
And says baby please don't go away oh no  
Please stay  
Come on stop this just leave alone I feel that  
Something is wrong maybe I have what I really want  
Waiting for me home, I can feel his vibration entering  
With his emotion and making this relation can  
respiration  
I I can't handle it no more  
I I wanna stay home alone  
I I feel that something is wrong  
Oh no no No Quiero  
No No No Quiero  
No no no quiero I can't handle it no more  
I just wanna be home alone coz I feel that  
Something is wrong  
Listen to what I really want I want some  
Difference in love no I don't wanna dance with your  
Eyes all through the night  
No I don't wanna see your face just staring at me  
And says baby please don't go away oh no  
Please stay  
Come on stop this just leave alone I feel that  
Something wrong maybe I have what I really want  
Waiting for me home I can feel his vibration entering  
With his emotion and making this relation can  
respiration  
I I can't handle it no more  
I I wanna stay home alone  
I I feel that something is wrong  
Oh no no No Quiero  
No No No Quiero
