When I think about the state of the world  
Innocent victims, boys and girls  
Those attacked by the enemy  
Suddenly my problems aren't as bad as they seem

Hallelujah  
I can't complain  
I'm encouraged to go on  
In Jesus name

Through sickness and pain

Sunshine and rain  
Hallelujah anyhow  
I can't complain

Devastation all over the land  
Constant attack by the enemy's hand  
Lord, I thank You for Your mercy  
Hey, I bless Your name for covering me

There are so many with no food  
No place to sleep  
How can I complain when  
You've been so good to me?
