Man can't cannot live by bread alone
But by every word out the mouth of God
There's a formula for confession
That can help you to live your best life

A law is simply a principle
Based on a predictable consequence of an act
Confession in Greek is homologeo
Which means to say what has been said

There is a law for confession
You just say what God has said

Man can't cannot live by bread alone
But by every word out the mouth of God
There's a formula for confession
That can help you live your best life

A law is simply a principle
Based on a predictable consequence of an act
Confession in Greek is homologeo
Which means to say what has been said

There is a law for confession
You just say what God has said

Speak the word, speak the word
Speak the word, speak the word
Speak the word, speak the word
Speak the word, you just speak the word

There is a law for confession
You just say what God has said

I can do all things through Christ
That strengthens me
Greater is He that is in me
Than He that is in the world

No weapons formed shall prosper
By His strips we are healed
We are healed, we are healed

We are healed, we are healed
We are healed, we are healed
We are healed, we are healed

There is a law for confession
You just say what God has said
Speak the word

There is a law for confession
You just say what God has said
Speak the word
