[Choir:]

The Lord has made... a covenant with you  
He has promised... that He... would bless... you  
You are in... the Earth... but you live, above... the curse  
You are kingdom, you have rights  
Blessings come... with no struggle... or fight

So when recession comes... you won't be affected  
When sickness comes... you'll have good health  
The dollar may fail... your wealth will increase  
War all around... you'll be at peace.

The Blessing... is on you, God's promise... to you [x2]

[Lead:]

So why do you worry... about... what's coming next  
Before you were born... you were destined to live  
blessed  
You are Kingdom, you... have rights  
Blessings come with no struggle... or fight  
A Kingdom citizen... you are  
You are blessed... both near and far  
So... when... recession comes, you won't, you won't be  
affected  
Even when sickness comes... I guarantee, you'll... you'll  
be in good health  
Even when the dollar fails... your wealth, your wealth  
will increase  
Even when war's all around... yeah... you will be at  
peace.

[Both - Choir and Lead:]

So... when recession comes... you won't be affected  
When sickness comes... you'll have good health  
The dollar may fail... your wealth will increase  
War all around... you'll be at peace.

The Blessing... is on you, God's promise... to you [x2]
