"Call Me Papa"

Visit "[Call Me Papa](#)" on MotoLyrics.com

The moon comes up and the moon goes down
Another sleepless night, another sleepless town
but I got you, yeah I got you
Whenever I think about what I thought
Seems to get lost watching all the rain drop
Cause I got you, yeah I got you
You can call me papa
And I'll call you baby
Don't forget your mama's my, baby too
Wherever you go, whatever you do
I will be there, be there for you
The moon comes up and the moon goes down
Another sleepless night, another sleepless town
but I got you, yeah I got you
Whenever I think about what I thought
Seems to get lost watching all the rain drop
Cause I got you, yeah I got you
You can call me papa
And I'll call you baby
Don't forget your mama's my, baby too
Wherever you go, whatever you do
I will be there, be there for you
yeah
(guitar)
You can call me papa
And I'll call you baby
Don't forget your mama's my, baby too
Wherever you go, whatever you do
I will be there, be there for you
I will be there, I will be there
be there for you.
