And some days I'm only half my size  
And some days I'm ten feet kneeling  
And some days I'm the owner of this city  
And some days I get caught stealing  
And then I hear the sirens blow  
And the church bells they let me know that it's just...  
Your heart (3x)

And sometimes I feel six feet under  
Sometimes I wanna scream loud as thunder  
Sometimes I know the world feels like it's shaking  
I'd rather be know for giving but for now I'm taking  
Static in my mind  
Just to fight trough the distance and the time baby...  
Your heart (3x)

Somewhere out there is a lost and found  
Somewhere out there is a lasting love  
Somewhere out there playing is the saddest tune  
Somewhere out there I can hear the beating of...  
Your heart (3x)  
It's just your heart beating  
Your heart (3x)
