it wasn't you, it wasn't me my friend
and i don't know but it feels like the end
why don't you tell me (3x)
what went wrong, what went wrong
and don't you think we could work it out tonight
where'd you go
this world we've grown, don't tell me it's gone
it's just a bend in the road but this road always goes on
why don't you tell (3x)
what went wrong? what went wrong?
and don't you think we could work it out tonight.

don't you think we could work it out, yeah.
don't you think we could work it out tonight
you don't wanna see me
you don't wanna talk on the telephone
i wanna see you, it's just that i don't wanna see you go.
don't wanna see you go, no
why don't you tell me (3x)
what went wrong, what went wrong
and don't you think we could work it out
