Purple sky seems to mesmerize

As light fills my eyes

Just the beginning of another day

Just not in the same way

Don't think about what you could've done

Cause tommorrow is gonna come

It'll hit ya, dare I near say

It feels like yesterday

Differently the same

Differently the same

Differently the same

Make a mark but don't make it deep

Just in case you climb too steep

Don't forget about what you said

Don't wait too long before tommorows dead

Something tells me theres more to see

I don't know maybe its just me

Could be you, could be me

I don't know I just let it be

Differently the same

What about in the middle of the night?

Everybody sees dark but I see light

I don't know maybe its just me

Something tells me theres more to see

I don't ever wanna say goodbye

Theres no reason just makes me cry

To see you walk away

Makes me wonder what to say

Differently the same

How do you say goodbye to your wife?

Just like saying goodbye to my life

So remember when you said goodbye

You asked me why I didn't cry

That was because I was short of breathe

Never felt so close to death

I don't ever wanna go through that again

Ah no my friend

Differently the same
