[Verse 1]

I hit the scene with another persuasion
A criminal invasion
Nigga thats what I'm workin with
Is it my fault or your fault
This world got me goin awol
Whatever the case may be you better believe lil lay play
yall hey yall
This ain't the endin it's really just beginnin
Grinnin lord forgive my sinnins and we are can come
up winnin
I'm determined to make this work
Just hopin my music makes a difference
A change for better thangs
But most of all a better way
You know we pray and we pray and we pray like every
day
But I think we need a little more faith
From across the word of my shoulder
A nigga is gettin older
And everyday I'm out here gettin closer to go

[Chorus]

Momma listen I'm on a mission for my future
If you new the new the was I perssure the common
shoot
That you would listen, but you can't hear me
So I guess I'm going solo I'm still living

Brother listen I'm on a mission for my future
If you new the new the was I perssure the common
shoot
That you would listen, but you can't hear me
So I guess I'm going solo I'm still living

Burn listen I'm on a mission for my future
If you new the new the was I perssure the common
shoot
That you would listen, but you can't hear me
So I guess I'm going solo I'm still living
