You and I, girl, are like a sun and moon  
Lately you've been in orbit in my head like a good  
summer tune

You and I are we never gone apart  
But I didn't have to tell you then,  
Cause you knew it back from the start, yeah

Chorus:

Just tell me yes I do  
Cause I can't go on without you!  
Gonna let our love shine  
To the end of time, to the end of the time,  
yeah say shine!  
To the end of the time oh

You and I, girl, like a brick on the street  
In a ... everybody's fear  
You and I, girl, like a breeze that blows  
Sometimes were coming and were going, but nobody  
knows

Chorus: (x2)

Just tell me yes I do  
Cause I can't go on without you!  
Gonna let our love shine  
To the end of time, to the end of the time,  
yeah say shine!  
To the end of the time oh  
Gonna let our love shine!
