just say what's on your mind  
what'cha know about love  
you said our love would be  
you said you were my girlfriend  
some girl you turned out to be  
i guess you know about leaving  
loving and leaving me  
you left me for no reason  
but you led me to believe  
sometimes your life can crumble  
sometimes your soul might make a stumble  
but you can't drown in your sorrow  
cause you might be found  
you might be found tomorrow  
what'cha know about living  
when you've been treated like a queen  
but a queen don't know about giving

i ain't looking to receive  
sometimes your life can crumble  
sometimes your soul might make a stumble  
but you can't drown in your sorrow  
cause you might be found  
you might be found tomorrow  
sometimes your life can crumble  
sometimes your soul might make a stumble  
but you can't drown in your sorrow  
cause you might be found  
you might be found tomorrow  
i said, you might be found  
you might be found tomorrow  
well, you might be found  
you might be found tomorrow (x3)
