I'm tryna to figure out why
I keep falling for men like you
You tell me all the things that the last one said
And you buy me all the same things too
Everytime I feel like
This is different
You turn around and prove me wrong
SMH once again
Ohh
I feel like i'm cursed
Will I ever get it right

Is there someone out there for me
Who's willing to give all I need

I don't know why I always fall for your type yeah

For your type
Tell me why I always fall for your type yeah
For your type
