

Dondria "Going Down"

Visit "[Going Down](#)" on MotoLyrics.com

So, so, so yeah
You know, you know what it is when you hear the sound
A town, B town, A town is about to go down!
You know, you know what it is when you hear the sound
A town, B town, A town is about to go down!

She hating moonlight when he loving the night
Your hands on me, boy they're looking...
A...on my consciousness, no bring the signs
My body is ready, willing tonight
I'm...the candles as we lose our clothes
It's about to pop out in here I suppose
Seems like it's getting darker, but somehow I see
through
Ring upon my finger speaking to me

Chorus:
Saying no, don't do it,
You got a man out home, so get to him!
Cause it's about to go down up in here
It's going down up in here
Down up in here, it's going down up in here
Hit the door, time to roll
Cause you're about to lose control, girl go!
Is this about to go down up in here?
It's going down up in here?
Down up in here, it's going down up in here!

A...I'm so far from here
You stand, right between, the end might exist
It's starting to resemble everything that I want
Your mind is playing tricks only I got to go
I take a step forward, he takes one too
So close to him, feeling hard when he moves
Seems like it's getting dark up, it's that how I see
The ring upon my finger is speaking to me

Chorus:
Saying no, don't do it,
You got a man out home, so get to him!
Cause it's about to go down up in here
It's going down up in here

Down up in here, it's going down up in here
Hit the door, time to roll
Cause you're about to lose control, girl go!
Is this about to go down up in here?
It's going down up in here?
Down up in here, it's going down up in here!

A town, B town, your body, let it go!
Life from a roller coaster up down, down up
All we do is get into it, all we do is walking fast
Smiling face, sad face, sad face, smiling face
It's big case, big face, it's all kind of situations
Girl, you can be my partner, and I can be your crime
I'mma get my feet up, let's bump up for the ride
I know we got problems, but it's all about to...
And we sure, and we purr, and what mind, and what
yours, aha!

Chorus:
Saying no, don't do it,
You got a man out home, so get to him!
Cause it's about to go down up in here
It's going down up in here
Down up in here, it's going down up in here
Hit the door, time to roll
Cause you're about to lose control, girl go!
Is this about to go down up in here?
It's going down up in here?
Down up in here, it's going down up in here!

It's going down, I feel it going down
Down, down, down
