"Think About It"

Visit "[Think About It](#)" on MotoLyrics.com

(chorus)

Think about, think about, think about, think about...It

(oh yeah)

Won't you,

Think about, think about, think about, think about...It

(just think about it)

Think about, think about, think about, think about...It

(come on)

Won't you,

Think about, think about, think about, think about...It

(shit, come on)

(VERSE)

Would you mind if I could give you,

Any part of me,

And give you the moon and stars above (the moon and
stars above) (yeah)(oh yeah)

Would you like if I could take you,

To ecstasy,(oh,oh,oh)

And give you the love you truly need,

So baby won't yah, baby won't yah,

(Chorus)

See I've waited for the moment,

To be with you,

So forget all the things he put you through,

(so forget all the things that he put ya through)(yeah)

You should know I wanna take you,

From your misery(uh,uh,uh)

So you can be treated like a queen,

And all you gotta do is,

(Chorus)

That's what I'm talking about baby.

(Bridge)

Shhh.....Just think about it

(singing)

All I wanna do is give my love to you, love to you

Whenever you need me I'm gonna see ya through, see

ya through
All I wanna do is give my love to you, love to you
Whenever you need me I'm gonna see ya through, see
ya through.....

(softly)
Think about it,
Like think about it,
And think about it,
Hey, won't yah just,
Think about it,
And think about it,
Like think about it,
And think about it,
Why don't yah just,
Think about, (Can't nobody do you like I do)
Think about it, (Cause I'm that kinda man)
Think about it, (yeah)
Why don't yah just,
Think about it,
And think about it,

(chorus)fades away.....
