Chorus

Ooh, say what, say what, say what
Ooh, girl u know what's up

Verse One

Me and my niggas be rollin'
Schemin' on u and your homies
The very first day of summer
All chromed out in a Hummer baby
Hit the park and parlay
Hope that u walk this way
Do u and your girls wanna ride
Play all day and puff on the la

Chorus

Ooh, say what, say what, say what
Ooh, girl u know what's up

I'm diggin' u and I'm feelin' u
U know what's up
Said I'm diggin' u and I'm wantin' u
So tell me what's up

Verse Two

Peep her thighs and I'm zonin'
Right around two in the mornin'
Looking fly with a sundress on
Think i feel a bone comin on
Girl u got me wide open
Want all day and in hopin'
So baby don't front
Back seat jeep, u know what I want

Chorus

Left-Eye's Rap

So baby tell me what's up
Can we ascend to higher heights
And when the path gets rough
We can give in to brighter nights

Breathe with peace, expand by leaps
Sow to reap our souls to keep
The passions deep and filled with heat
Living this life on the hustle
I barely get enough time
U know me for the Platinum
How I stack them and shine
U see a I lot of contenders
They try to end up in my world
A reputation known as the untouchable girl
I'm movin' on and now I'm trying
To make a change in my ways
Be the best that I can be
To last ne all of my days
Now we can blaze pathways
Or just take our time
Better hollar if you hear me
'cause Left-Eye gonna shine
My eyes don't lie see how
They glisten when you pass me by
U and I don't need permission to be unified
Surely I done seen and heard of many places
Then I traveled around the world, seen many faces
Don't let another one get near me if you wanna be true
And show me that nobody else can do it better than you
So if you serious, I'm curious to see what you get
My love is furious, 'cause I believe in blowin' up spots

Chorus
