"You Know That I Love You - Life Goes On"

Visit "[You Know That I Love You - Life Goes On](#)" on MotoLyrics.com

You Know that I love you, and that ain't gone change
I know you're not here with me now but my love for you
stays the same
Don't worry about those other girls
They can't take your place
You're the only woman in my world
And you can't be replaced
(Girl U Know)

Chorus
You know that I love you
Girl you're everything to me
Just let me show you
Just how much you mean to me

It's been such a long time since I've been near you
My friends say I should play around
They wish that they could have what I found in you
You know I'm not that other guy
Who broke your heart
You're still the only woman in my world
Even when we're apart

Chorus

I only have eyes for you (oh baby)
Believe me what I say is true
You know my heart belongs to you
And only you
And you can't be replaced
(Girl U Know)

Chorus
