[Verse 1:]

If sin is your best friend I'm talking bout you  
Better switch it up before the end come thru  
Or you gone live in Gehenna where darkness brew  
Better open up your bibles learn the truth  
Cause you can have allot of money but you're still living broke  
You get it how you get it it don't matter who you hurt  
The kids in the hood yes they dying yo  
Following influences on TV and radio  
And there ain't nobody to blame because we did it  
Poor mother earth she done changed  
Look how we did her  
Global warming  
Dropping bombs on Baghdad  
Terrorism nuclear war heads

[Chorus:]

If you feeling like me  
Then you would wonder  
Will it ever change  
Oh how I wonder  
This is something that we need to think about yeah

[Verse 2:]

If you living on that negative I'm talking bout you  
Better switch it up before the end come thru  
Man you so close to Hades you don't have a clue  
Better open up your bibles learn the truth  
The economy is shattered and we're losing our homes  
Why do we even bother when we're never gonna own  
The system is design to keep us all broke  
We living in a world there's no rich without poor  
And there ain't nobody to blame because we did it  
Poor mother earth she done changed  
Look how we did her  
Global warming  
Dropping bombs on Baghdad  
Terrorism nuclear war heads

[Chorus:]

If you feeling like me  
Then you would wonder  
Will it ever change  
O how I wonder

This is something that we need to think about yeah  
[Bridge:]  
We all say that in God we trust  
There's a little bit of Adam & Eve in us  
We born imperfect for certain  
But never the less gotta try to break the curse man  
What's beautiful is we can make a choice  
But everybody gotta listen to that inner voice  
From my hood to your hood and world wide  
Yo it's time to switch it up y'all cause it's do or die  
Now think about that for a moment yea  
[Chorus:]  
If you feeling like me  
Then you would wonder  
Will it ever change  
O how I wonder  
This is something that we need to think about yeah
