chorus:

Think About

Think about

Think about

Think about it

Won't you

Think about

Think about

Think about

Think about it

(repeat)

Would you mind if I could give you

Every part of me

And give you the moon and stars above

(the moon and stars above) yeah ooohh yeah

Would you like if I could take you

to exstacy

show you the love you truely need

Baby won't you, baby won't you

Chorus (2x)

See I'm waiting for the moment

to be with you

So forget all things he put you through

(so forget all the things that he put you through) yeah

You should know I wanna take you

from your misery

So you can be treated like a queen

And all you gotta do is

Chorus (2x)

(Shhhhhhh just think about it)

All I wanna do is

give my love to you (love to you)

Whenever you need me

I'm gonna see ya through (see ya through)

All I wanna do is

give my love to you (love to you)

Whenever you need me

I'm gonna see ya through (see ya through)

(can't nobody do u like i do cuz i'm that kind of man)

Chorus (till end)
