TRANSLATION

Saying you're going to leave me, saying it's over,
you're always trying to make me waver
I know that you're just fretful and it doesn't change the
way I think about you
(Call up Call up)
Stop trying to test me, I get tired seeing you like that
(Call up Call up)
Why do girls always want confirmation
Does a guy's heart waver so easily?
If everything was predestined, wouldn't life be too
boring
It's pretty dull having to express my feelings in the
same way everyday

Hey don't bring me down
Don't turn me into such a man
If I were a man that knew the way to love, I would
choose never to stop (loving you)

Hey don't bring me down
Don't look at me as if I'm like a migratory bird
Let's see who's going to protect your love in the end
Give it away Give it away Give it away now
Give it away Give it away Give it away now

Saying don't be so distracted, saying that our love has
gone cold
Why don't you realize how precious I am?

You seem to lack confidence (Words that don't suit
you)

You really don't know? (You don't know I'm loving you)

(Don't you realize) that from head to toe
Your everything captivates me
I definitely do not want to be your boring slave
Just like a oriole (T/N: Korean nightingale)
It's pretty dull having to express my feelings in the
same way everyday

Hey don't bring me down
Don't turn me into such a man
If I were a man that knew the way to love, I would
choose never to stop (loving you)

Hey don't bring me down
Don't look at me as if I'm like a migratory bird
Let's see who's going to protect your love in the end

Stop trying to make me waver again
Just let me protect you
(I need girl I need girl I need you girl)
Stop making me seem like a worthless guy just to meet
people's expectations
(I need girl I need girl I need you girl)

Hey don't bring me down
Don't turn me into such a man
If I were a man that knew the way to love, I would
choose never to stop (loving you)

Hey don't bring me down
Don't look at me as if I'm like a migratory bird
Let's see who's going to protect your love in the end
I need girl
I need you girl
