ENGLISH TRANSLATION

You call me 12 times a day, checking...
If I'm on the line with someone else
And leave a message, feeling suspicious.

Who would I be talking with at this hour?
You're imagining a girl who doesn't even exist
And making this hard for me, Yeah.

You suffocate me with your words of love.
The foolishness keeps building, persisting again. No.
I want to forget you. Hoping you don't appear on my
phone again, I said...

You've got the wrong number
You've got the wrong number
I'm sorry you've got the wrong number
So don't call me anymore

Just like my mother, wanting to know everything.
You worry about who I'm with and what I'm doing
And you believe you're doing it for me

You try making excuses, saying you were only
wondering
But you're pushing the limits and making love more
painful
What's the use of lingering on to a hung up call?
The words I hear are obvious, what to say...

You've got the wrong number
You've got the wrong number (I can't go)
I'm sorry you've got the wrong number
So don't call me nomore

I'll remove everything (remove everything)
I'll change everything (change everything)
The password that you and I remember
The ringtone, which rang when my name appeared on
your phone
I'll erase everything, reset, reset...

(RAP)
Wow, I'm going crazy and wish you would just shut up
I'm a stupid fish in your net. Isn't that enough cash?
Your words of love scrape my skin, becoming dull
My head starts to hurt, and I'm getting delusional
again.

Being interested and doing it just for me, I'm just your
puppet
Saying the word "no" shouldn't make you uneasy.
Just let me go, say
In order for me to break away, help me, say...
We've already come this far; we can't again

You've got the wrong number
You've got the wrong number
I'm sorry you've got the wrong number
So don't call me nomore (I want to escape now)
You've got the wrong number (Don't ever call me
again)
You've got the wrong number (Don't love me anymore)
I'm sorry you've got the wrong number
So don't call me nomore (Don't hold on. Please let me
go...)
