[Verse 1:]

See I try to be the one in your life  
But things don't seem to work out right  
These are demons we are fighting  
So I drop to my knees and I look up to the sky  
And pray to the lord and ask god why  
Should I leave or just keep trying  
I keep crying over you, I keep trying to get over you  
This just leaves me so confused  
So in love don't know what to do  
Love is a drug I have of you

[Chorus 2x:]

I want you to stay (scratch that)  
I want you to leave (come back)  
I want us to go (bring me back)  
I don't even know (when we'll be back)

[Verse 2:]

I hang up on you and then I call you back  
Got me confused just like that  
I'm back in the mood, back in the mood for you  
Damn, how many times have I walked out the door ()  
How many times have I said I aint gonna be with you no  
more  
Be with you no more, sleep with you no more

Baby, I need () from you  
You're taking advantage for everytime I said I'm  
through with you  
Look at all the harm you've done  
But you're still the breath of my lungs

[Chorus 2x:]

I want you to stay (scratch that)  
I want you to leave (come back)  
I want us to go (bring me back)  
I don't even know (when we'll be back)

Don't know when we'll be back  
Good times bring them back  
So in love with you  
Don't know what to do  
And after all we've shared  
After all the love we've shared I know that you still care  
( )

[Chorus 2x:]

I want you to stay (scratch that)  
I want you to leave (come back)  
I want us to go (bring me back)  
I don't even know (when we'll be back)

Please stay with me  
Please please please  
I'm so, so lost  
Confused over you
