"Hang On"

Visit "[Hang On](#)" on MotoLyrics.com

Sometimes it's hard to know that it's all over
Sometimes it hurts so bad
To think that we could feel much for each other
Yet lost what we once had

To love you is one thing I can do
I have always been around to love you

At times when I'm alone I feel so empty
I've always wished you're here
And now you're gone and all is gone forever
Oh boy, it's so unfair

Remember the things I always say
I mean them all so please believe
The things that I've been telling you

Just hang on
Who knows we might get there
After all the waiting done
We'll be the ones to find out
If we hang on
You know we're on our way
So just hang on

At times when I'm alone I feel so empty
I've always wished you're here
When I look at the sky I see our memory
That was where I used to be

I love you
I always think of you
Please listen to the words I say
These words that I've been telling you

Just hang on
Who knows we might get there
After all the waiting done
We'll be the ones to find out
If we hang on
