(Donna Fargo)

I couldn't sleep at all last night for dreaming of you
Oh, it's all right he's got someone that he dreams of
too
And since I've known this feeling I don't mind if he's
untrue
He can have all he wants of her if I can dream of you.

I wish I'd never heard someone say
One time dream, dreams that are good for you
And be sure you want what you're dreaming of
'cause sometime dreams come true
So he'll find out if he loves her
And I'll keep dreaming of you.

But all the time I wonder who's the smarter of the two
And I remain the coward cause cowards never lose
And he can have all he wants of her if I can dream of
you
He can have all he wants of her if I can dream of you...
