I'll try a little bit harder if you will
And if you think we're worth trying to save

We were happy once I know we were where where did
we go wrong
We were on the same side one time weren't we
Why would we how could we we could not pretend for
so long
But I don't want to prolong this mis'ry if you're leavin'
And I don't think I'd beg you to stay
But I'll try a little bit harder if you will and if you think
we're worth trying to save

We can make it work if we care enough somehow
somewhere someway
Cause surely what we had is worth whatever it takes to
keep it

So let's don't let it let's protect it and not let something
precious get away
But I don't want to prolong...
But I'll try a little bit harder if you will and if you think
we're worth trying to save
Oh don't you think we're worth trying to save
