(Donna Fargo)

Four walls and a lot cups of coffee make a lot of  
conversations in my mind  
And a whole lot more question unanswered like  
I wonder why the rain doesn't shine  
Picked up the old guitar and I strummed it  
But it didn't seem to want to hear what was on my mind  
Found a lonely man and we almost made some music  
But sad and lonely songs are out of style.

Just like a sad and lonely girl peddling a melody  
Coming up with a whole lot of words tryin' to find a  
chance to rhyme  
Sing me a rain song a sweet sounding rain song  
I wonder why the rain doesn't shine.

Midnights only underline the loneliness  
And the sound of hearts beating out of time  
We could've talked about a lot of things together  
Don't you wonder why the rain doesn't shine.

But if I miss you better than I loved you  
It's because I had more practice you know me  
And since neither one of us had a chance to do  
A good job of loving let's try to be a loving memory.

Just like a sad and lonely girl peddling a melody  
Coming up with a whole lot of words tryin' to find a  
chance to rhyme  
Sing me a rain song a sweet sounding rain song  
I wonder why the rain doesn't shine.

Just remember a sad and lonely girl peddling a melody  
Coming up with a whole lot of words tryin' to find a  
chance to rhyme  
Sing me a rain song a sweet sounding rain song  
I wonder why the rain doesn't shine...
