Misery and pain were all I stood to gain
From loving someone crazy like you
There were days when it was fine
And I was glad that you were mine
Disappointment and confusion took the place of loving
you
There were two of you
One was good, and one was bad
One I hope I can forget,
And one I wish that I still had
Too bad I couldn't have one without the other
Dr Jekyll, Mr. Hyde.

Tell em both I said goodbye
One of you was mean, he was rotten to the core
The other brought me roses to my door
One of you was handsome, and I still miss him so
The other one could have been on Jerry Springer's
show
There were two of you
One was good, and one was bad
One I wish I could forget,
and one I wish that I still had
Too bad I couldn't find one without the other
Dr Jekyll, Mr. Hyde

Tell em both I said goodbye
Too bad I couldn't have one without the other...
