I was a stranger further out in sin
Didn't even have a love for God within
But now I've found Him & I'm on my way
God loves His Children, every day.

Brother take warning while yet, you have time
Don't let old Satan lead you on down the line
Just tell old Satan to stay out of your way
He will protect you, every day.

I'm glad I found Him now I'm on my way
I'm going to follow Jesus every day
Nothing can change me & I'm glad to say
I love my Savior, every day.

Chorus: God loves His children, yes I know
He will protect you everywhere you go
Just call upon Him He will hear your prayer
God loves His children, everywhere...
