Under the red rose  
Under the yellow  
Under the open sky

Come here  
Come to me  
Come sleep  
Lie with me  
And watch the graceful little greenedged animals  
Enchant you

I could be here with you  
If only you would free your way through  
I could be safe with you  
If only you would free your way through

Come  
Lay your hands on me now  
Lay your words on me now  
My love

Lay your words on me now  
Lay your hands on me now  
My love

Inside  
Glistening  
This joy of adventure  
Crystal on crystal  
Surrounds you it's peaceful  
Oh I wonder if  
Seven roses later  
Was a fairy tale

I could be here with you.....
