I've tried it all to get you back  
Tried to forget the love we had  
You keep runnin' far away  
And I keep holding on yesterday.  
I keep hopin' you still care  
I'm not happy anywhere  
You're not worth it, anyway  
But I'm in prison until you come back to stay.

I need you to set me free  
I don't know why you had to leave  
Now you're off with someone else  
And I'll be lonesome here all by myself  
Loving you was just a crime  
Come back to me I've done my time  
I wish the past would set me free  
And I could find someone that you could never be.

Chorus:  
Your love is like a prison and you've thrown away the  
key  
I hate being lonesome while you're running wild and  
free  
I'll take back the things I said if you'll come back to me  
It's cold & lonesome in this prison that your love turned  
out to be...
