"Lonesome Highway"

Visit "[Lonesome Highway](#)" on MotoLyrics.com

I can't erase the miles or the lines on my face
There's no need for me to wonder where I might have
been

I can't get nowhere without this lonesome road
and I can't remember what happened to my friends

Chorus: This lonesome highway and the wasted miles
I've gone

Lonesome highway, leads away from home and
tomorrow

I'll be here again

On this lonesome highway, where I've never been

I can't cross the river without bridges that I've burned
I'll have to go an extra mile to find a different way

I keep on riding on this lonesome road
I can't remember where I was yesterday

Chorus: This lonesome highway and the wasted miles
I've gone

Lonesome highway, leads me back to home and
tomorrow

I'll be here again

On this lonesome highway, where I've always been
