It's been a month of Sundays
Since I've seen your face
The road goes on forever
And you're gone without a trace.

I just can't forget you and
You've erased me from your mind
Only reason we're apart
Is you've got too much pride.

How can you sleep at night
With all the lies you've told
And how many victims have you had
Since I've been gone.

I still dream about you
But one thing is for sure
I don't miss you
I miss the man I thought you were.

I didn't know your friends
Back when our love was new
They came in the picture
And you said that we were through.

What goes around will come around
And when your friends are gone
It will be so funny
Just to see you all alone

Chorus: And it's time that I got over you
But it's not in my hands
For those of us that have a heart

It's hard to understand.

And if you ever loved me
Like you said a thousand times
You are just a loser
And you can't make up your mind...
