"Never Gonna Change"

You will never settle down
You'll be ramblin' all around
'Til they put you in the cold, hard ground
You will never settle down

You got leavin' on your mind
You leave me lonesome all the time
Grass is greener on the other side
You got leavin' on your mind

Chorus: I can't change you, so I won't even try
You don't want me now but you'll be lonesome down
the line
You ain't never gonna change
Not a thing can make you stay
It ain't nothing but a crying' shame
You ain't never gonna change

You aint' never comin' home
You always got someplace to go
You've been travelin' like a rolling stone
You aint never comin' home

There is nothing I can do
Whoever loves you is a fool
Cause your love is just too good to be true
There is nothing I can do

Chorus
