That sad old train  
Sleeping on an old rusty track  
She was from another time  
Gone with the wind like the smoke from that ole stack  
She brought smiles and waving hands  
As she whistled by a sleepy town  
It was once the way to go  
Just a shiny nickel and you were homeward bound

Chorus: Iâ€™ve seen better days  
Like that sad old train  
On an old abandoned track  
When you were holding me  
I knew someday youâ€™d leave  
Like that old train  
You wonâ€™t be coming back

She gently rumbled in the sunshine  
As she carried home the mail  
Her letters keeping lovers waiting  
Friendly little boys placing pennies on her rails I can  
relate to that old train  
Since you left me all alone again  
No one ever comes around  
Once upon time we were riding on the wind

Chorus: Iâ€™ve seen better days  
Like that old sad train  
On an old forgotten track  
When you were holding me  
I knew someday youâ€™d leave  
Like that old train  
You wonâ€™t be coming back  
Like that old train  
Never coming back
